President of the Senate

March 21, 2013

Dear Governor Dayton:

I am applying to be a member of the Minnesota Insurance Marketplace Board of Directors. I believe I am qualified to serve as a member of this Board.

I have a broad background in health care and health insurance issues. As Executive Director of AFSCME Council 6, I was the lead union negotiator with the State of Minnesota in designing the insurance benefits for State of Minnesota employees and their families.

This has involved issues of who is to be covered, what that coverage should be, the nuts and bolts of costing both specific coverages as well as the overall insurance package, detailed review of administrative costs of health plans (both as providers of insured products and as third party administrators of self-insured products), detailed review of pharmacy benefit managers, and finally extremely detailed review and analysis of medical groups and hospitals for participation in the networks offered to state employees and their families on all 87 counties as well as in the boarder counties of the Dakotas, Iowa, and Wisconsin.

I have been an active participant in private sector and public-private initiatives for health care reform, quality improvement and public reporting since the 1980s. This included the Minnesota Coalition on Health (the very first multi-party partnership in the state), the Minnesota Health Data Institute (created as part of the MinnesotaCare law and responsible for the first public reporting of patient assessments of all health plans and insurance companies with products in Minnesota), the Institute for Clinical Systems Improvement (the organization most responsible for the improvement in the quality of care provided to Minnesotans), and most recently Minnesota Community Measurement (the lead organization for public reporting on the quality of care of Minnesota providers). In all these cases, I have been an explicit advocate for patients and consumers of care.

Finally, I have over 20 years of active participation in public policy discussions on health care in Minnesota. I have served as a member on the health reform commissions or task forces convened by Governors Perpich, Carlson, Pawlenty and Dayton. I also served on the Citizens Forum convened by Senator Durenberger. This have involved work on health care and health insurance for Minnesotans served by public programs, for Minnesotans served in the individual market, for Minnesotans served in the small group market, for Minnesotans served in the large group market, and for Minnesotans served in the self-insured market. It has also dealt with public health issues.

I have attached a resume to the application.

Thank you for your consideration.

Peter Benner
