Dear Mr. Simon:

I would like to be considered for reappointment as the 7<sup>th</sup> Congressional District citizen member on the Environmental Quality Board (EQB). I have really appreciated serving on the board. I would like to continue to have the opportunity to communicate and help educate citizens in Northwest Minnesota on the projects and programs that are available to help protect and enhance our state's land and water resources.

I live on a hobby farm north of Moorhead and I enjoy all outdoor activities this great state has to offer. My entire career has been dedicated to taking care of the natural resources in the Red River Basin, and I think the importance placed on protecting land and water resources during the Dayton administration is admirable.

The makeup of the EQB board is a unique structure and I have really benefitted from working with such a knowledgeable, committed group of people along with a dedicated staff. My role as a citizen member has allowed me to help engage the public in my region of the state and make them aware of the opportunities they have in helping guide the state's water management activities.

Natural resource management has grown increasingly more complicated. As a consequence, the decision-making process must accommodate the views of individuals, governmental agencies, and others throughout the state. Our land and water resources are crucial to the health of our economies, the resilience and prosperity of our communities, the health of our fish and wildlife, and the well being, health and enjoyment of everyone who lives, works, and visits the state of Minnesota. The EQB's agency coordination role and the inclusion of citizens in helping guide the development of long-range strategies to enhance Minnesota's environmental quality is essential and I have enjoyed being a part of that important role.

Thank you for your consideration. If you have any questions please don't hesitate to call me at 701-371-6802.

Sincerely,

Julie Goehring
