# OLUWAGBENGA OMONIYI OGUNGBE MS, MPH, MBBS, ASP, CSP

1539 Hydrum Avenue North, Oakdale, MN 55128. USA

+1-651-210-1833; tetralgee@gmail.com

## Objectives

With a robust educational background and cognate experience in the fields of Environmental, Occupational Health and Safety (EOHS) / Risk Control, I am committed to utilize my expertise to contribute to the profitability of the organization through the anticipation, identification, analysis, and control of situations that pose the risk of injuries to employees as well as property, environmental and product-related losses.

## Summary of Qualifications

I am a credentialed Certified Safety Professional (CSP) with additional experience in clinical and public health practices; expertise in EOHS best practices, as well as working knowledge of regulations of various government agencies. I possess proficient computer and strong interpersonal skills, technical knowledge and strong skills in verbal and written communications.

## Education

- **Masters of Science in Risk Control / Environmental Health & Safety** (Dec., 2013)  
University of Wisconsin, Stout, College of Management, Menomonie, Wisconsin, USA
- **Masters of Public Health (MPH) in Environmental & Occupational Health**, (May, 2011)  
University of Minnesota, School of Public Health, Minneapolis, Minnesota, USA
- **Bachelor of Medicine, Bachelor of Surgery (MBBS)** [MD equivalent] (March, 2003)  
University of Ilorin, College of Health Sciences, Kwara State, Nigeria (1995- 2003)

## Professional Experience

- **Loss Control Specialist**  
**Risk Administration Services (RAS) Inc.**, Sioux Falls, South Dakota, USA (February 2017 to present)
  - Development and enhancement of organizations' loss control programs.
  - Reduction of client's risk exposures through the provisions of safety, human factors, and ergonomic services.
  - Coordination, facilitation, and implementation of highly technical and customizable loss control programs and services such as:
    - Functional Job Analysis
    - Challenging Behavior Injury Reduction
    - Ergonomics Analysis
    - OSHA Compliance
    - Industrial Hygiene
    - Accident/Injury Investigation
    - Return to Work / Stay at Work programs
  - Develop training manuals; and conduct safety and ergonomics trainings for employees.
  - Consultations on wide-ranging environmental, occupational health and safety (EOHS) topics.
- **Senior Safety Engineer**  
**M. A. Mortenson Construction**, Minneapolis, Minnesota USA (May, 2014 – February, 2017)  
As the Safety Manager overseeing multiple projects, I have the responsibilities to:
  - Develop and administer the 'Zero Injury' policy and culture of Mortenson Construction.
  - Maintain safe work environment and act as a resource to the project management team in loss control activities.
  - Manage all the environmental, health and safety components of the project, including pre-project, pre-phase and pre-task planning activities.
  - Develop site-specific safety programs, including emergency action plans (EAP)
  - Review and monitor safety submittals as well as subcontractor activities.
  - Develop safety training manuals; conduct orientation, re-orientation and training for new and current employees
  - Chair project safety leadership, safety engineers' and safety committee meetings.

RECEIVED

JUN 18 2018

President of the Senate

- Conduct accident investigations by performing root cause analysis and recommending/implementing corrective & preventative actions.
- Accompany safety, health, insurance and OSHA inspectors on walk-through tours.
- Assist in designing, implementing and reviewing the safety management system of the company with a view to ensuring continuous improvement.
- Design, implement and review Industrial Hygiene programs with the aim of improving workers' safety.
- Design, implement and review Ergonomics policies and programs of Mortenson with a view to eliminating or mitigating cumulative trauma disorders and other ergonomics-related injuries.
- Assist in designing, implementing and coordinating such proactive safety programs like behavior-based safety (BBS), health and wellness programs, and employees' safety incentives programs.

➤ **Environmental, Health & Safety Specialist**

**Greatbatch Medical**, Plymouth, Minnesota USA (April, 2013 to April, 2014)

- Evaluated facility's lockout/tagout program to determine gaps & proffered solutions that reflected best practices.
- Performed assessment of various equipment and machines utilized at Greatbatch Inc. to determine their sources of energy, and performed comprehensive hazard analysis to identify potential hazards in each equipment.
- Wrote LOTO procedures and designed placards for each equipment, determining the modifications and retrofitting required to make each equipment LOTO-capable.
- Conducted accident investigations using root cause analysis, and proffered solutions to prevent recurrence.
- Conducted ergonomics analysis and proffered solutions to ergonomics issues and concerns.

➤ **Occupational Health & Safety Associate**

**Park Nicollet Research Institute**, St Louis Park, Minnesota USA (May 2010 to December, 2013)
