To whom it may concern:

I am excited to once again be applying for the Minnesota State Plumbing Board. It gives me the opportunity to give back to my to a trade that has given me so much over the years.

With 15 years in the field, I feel that I've learned many skills and have experienced many things that will benefit the state. I feel that having the input of someone who is involved in the plumbing field on a day to day basis, would be a huge benefit. Hard work, dedication, and team work were traits that I used during my first term on the plumbing board, and I'm looking forward to putting those skills to use again. Being on the board has helped me understand the code more and I think will continue to be a huge benefit when using this knowledge to bring back to our apprentices whom I instruct as well.

Thank you for taking the time to review my cover letter. I look forward to serving another term proudly as a board member of the Minnesota State Plumbing Board.

Sincerely,

Justin Parizek
