Subd. 9. **Biennial report.** The agency shall also submit a biennial report of its activities and receipts, and a plan for the next biennium, to the governor and the legislature on or before February 15 in each odd-numbered year. The report shall include: (1) the distribution of money under each agency program by county, except for counties containing a city of the first class, where the distribution shall be reported by municipality; and (2) the cost per unit of housing and the cost per square foot of housing financed under each agency program.

In addition, the report shall include the cost to the agency of the issuance of its bonds for each issue in the biennium, along with comparable information for other state housing finance agencies.

Sec. 2. Minnesota Statutes 2018, section 462A.33, subdivision 1, is amended to read:

Subdivision 1. **Created.** The economic development and housing challenge program is created to be administered by the agency. Notwithstanding section 462A.24, this section shall be construed based on the specific language within this section and within an appropriation pursuant to this section.

(a) The program shall provide grants or loans for the purpose of construction, acquisition, rehabilitation, demolition or removal of existing structures, construction financing, permanent financing, interest rate reduction, refinancing, and gap financing of housing to support economic development and redevelopment activities or job creation or job preservation within a community or region by meeting locally identified housing needs. "Locally identified housing needs" means housing for the area work force supported by the local municipality, housing redevelopment authority, economic development authority, or other political subdivision responsible for housing.

Gap financing is either:

(1) the difference between the costs of the property, including acquisition, demolition, rehabilitation, and construction, and the market value of the property upon sale; or

(2) the difference between the cost of the property and the amount the targeted household can afford for housing, based on industry standards and practices.

(b) Preference for grants and loans shall be given to comparable proposals that include regulatory changes or waivers that result in identifiable cost avoidance or cost reductions, such as increased density, flexibility in site development standards, or zoning code requirements. Preference must also be given among comparable proposals to proposals for projects that are accessible to transportation systems, jobs, schools, and other services.

(c) If a grant or loan is used for demolition or removal of existing structures, the cleared land must be used for the construction of housing to be owned or rented by persons who meet the income limits of this section or for other housing-related purposes that primarily benefit the persons residing in the adjacent housing. In making selections for grants or loans for projects that demolish affordable housing units, the agency must review the potential displacement of residents and consider the extent to which displacement of residents is minimized."

"Sec. 3. Minnesota Statutes 2018, section 462A.33, subdivision 3, is amended to read:

Subd. 3. **Contribution requirement.** Fifty percent of the funds appropriated for this section must be used for challenge grants or loans for housing proposals with financial or in-kind contributions from nonstate resources that reduce the need for deferred loan or grant funds from state resources. Challenge grants or loans must be used for economically viable homeownership or rental housing proposals that address the housing needs of the local work force. "Housing needs of the local work force" means one or more businesses located in the project area or within 25 miles of the area that employs a minimum of 20 full-time equivalent employees in aggregate and have provided a written statement to the local housing authority indicating that the lack of available housing has impeded their ability to recruit and hire employees.

Among comparable proposals, preference must be given to proposals that include contributions from nonstate resources for the greatest portion of the total development cost. Comparable proposals with contributions from local units of government or private philanthropic, religious, or charitable organizations must be given preference in awarding grants or loans.

For the purpose of this subdivision, a contribution may consist partially or wholly of the premium paid for federal housing tax credits."

March 27, 2019

The Honorable Jeremy R. Miller
President of the Senate

The Honorable Melissa Hortman
Speaker of the House of Representatives

We, the undersigned conferees for S.F. No. 1743 report that we have agreed upon the items in dispute and recommend as follows:

That the House recede from its amendments and that S.F. No. 1743 be further amended as follows:

Delete everything after the enacting clause and insert:

"Section 1. **SCHOOL CALENDAR ADJUSTMENT; 2018-2019 SCHOOL YEAR.**

Subdivision 1. Required school days and hours. (a) Notwithstanding Minnesota Statutes, sections 120A.32, 120A.41, and 126C.05, the board of a school district or charter school that canceled school on one or more days during the 2018-2019 school year due to health and safety concerns may count those days as instructional days for purposes of calculating the number of hours and days in the school year under Minnesota Statutes, section 120A.41, and the calculation of average daily membership under Minnesota Statutes, section 126C.05, for students enrolled both before and after those school closure dates.

(b) If a school district or charter school would not have met the required minimum number of days and hours of instruction for students without the authority in paragraph (a), the district or charter school must report to the commissioner of education in the form and manner determined by the

commissioner on the number of days and hours that the district counted under paragraph (a) to meet the required days and hours of instruction. A school district that counts a day that school was canceled as an instructional day in accordance with paragraph (a) is encouraged to adopt an e-learning day plan under Minnesota Statutes, section 120A.414.

(c) If a school board resolves to count a day that school was canceled as an instructional day in accordance with paragraph (a), the school district must compensate employees and contract employers in accordance with subdivisions 2 and 3.

Subd. 2. **Instructional day; employees.** (a) This subdivision applies to the employee of a school district that resolves to count a day that school was canceled as an instructional day in accordance with subdivision 1 who:

(1) was scheduled to work on a day that school was canceled and counted as an instructional day;

(2) did not work on any or all of those days; and

(3) did not receive compensation for those days.

(b) Notwithstanding any law to the contrary, for each day identified in paragraph (a), a school district must either:

(1) allow any school district employee under paragraph (a) the opportunity to work on another day that the school district designates and must compensate the employee working on the designated day at the employee's normal rate of pay; or

(2) compensate any school district employee under paragraph (a) for each of the days not worked at the employee's normal rate of pay.

Subd. 3. **Contract employer to pay eligible employees.** (a) For purposes of this subdivision, "contract employer" means an employer who provides student-related services throughout the school year to a school district, and "eligible employee" means a person:

(1) whose primary task is to provide services to students attending a school district;

(2) who was scheduled to work for the contract employer on any of the days that school was canceled and the school board counts as an instructional day in accordance with subdivision 1;

(3) who did not work on any or all of those days; and

(4) who did not receive compensation for any or all of the employee's regularly scheduled shifts on those school days.

(b) A school district must notify a contract employer which days it counted as instructional days under subdivision 1, if any.

(c) A contract employer who agrees to compensate its eligible employees at their normal rate of pay for the hours of pay lost due to a school cancellation, later counted as an instructional day

under subdivision 1, must notify the district of its intended action and, once notified, the school district must fully compensate the contract employer for the days identified under paragraph (b).

(d) Notwithstanding paragraph (b), a school district and contract employer may adjust the full, regularly scheduled daily contract rate if special circumstances within the district warrant an adjustment.

Subd. 4. **Probationary teachers.** For the 2018-2019 school year only, for purposes of Minnesota Statutes, sections 122A.40, subdivision 5, paragraph (e), and 122A.41, subdivision 2, paragraph (d), the minimum number of days of teacher service that a probationary teacher must complete equals the difference between 120 days and the number of scheduled instructional days that were canceled due to health and safety concerns and that the school board resolved to count as days of instruction under Minnesota Statutes, section 120A.41.

Subd. 5. **Accounting.** Notwithstanding any law to the contrary, services paid under subdivision 2 or 3, including expenses recorded in the food service fund, may be charged to the same Uniform Financial Accounting and Reporting Standards object code to which the service is charged for an instructional day.

EFFECTIVE DATE. This section is effective the day following final enactment."

Delete the title and insert:

"A bill for an act relating to education; modifying the calculation of days and hours of instruction and compensation for school days canceled during the 2018-2019 school year; requiring affected school districts to report to the commissioner."

We request the adoption of this report and repassage of the bill.
